

Please bring in Raw Wraps kale & spinach wraps.

Dear Store Manager,

We the undersigned, are very excited about a new vegan, raw, gluten free, soy, nut, corn, and dairy free tortilla wrap made from spinach and kale, called Raw Wraps.

We are regular customers of your store and many of us suffer from food allergies or are vegan and find the choices for wraps limited in your bread and deli sandwiches area. We want Raw Wraps because they are made with simple, whole food ingredients, are high in antioxidants A & C, are a good source of fiber and are only 70 calories. We petition you to begin stocking Raw Wraps as soon as possible! The information you need to begin stocking Raw Wraps is below. Thank you.
